

RASHAD SHAQUILLE TAOFIK

Informatics Engineering Student

Cibitung, Bekasi Regency | +6285715906289 | rashadshaq@gmail.com

Profesional Summary

A dedicated Informatics Engineering student with a focus on Data Science, Web Development, and Network Configuration. Proven track record of responsibility through a one-year teaching service, which built strong communication and leadership skills. I am highly disciplined and prioritize time management in balancing academic and technical projects. As an AI enthusiast, I actively leverage artificial intelligence to optimize daily productivity, coding efficiency, and problem-solving.

Education

Indonesian Computer University | Bachelor of Informatics Engineering (2024 – Present)

- Relevant Coursework: Introduction to Data Science, Python Programming (NumPy), Computer Networking (Cisco Netacad), and Web Development.
- Focus: Developing a strong foundation in software logic, database management, and data-driven solutions.

Volunterr & Teaching Experience

Pesantren Islam Hidayatunnajah | Arabic Language Teacher (Service Year) June 2023 - July 2024

- Dedicated a full year to educating students, honing public speaking and classroom management.
- Simplified complex language concepts, demonstrating strong communication and leadership.
- Maintained high discipline in managing administrative duties and student progress

Technical Projects

- Cafe Manjaro Web Interface: Built a responsive landing page for a cashier system using HTML, CSS, and JavaScript.
- Music Player (GitHub): Developed a web-based interactive music player focusing on UI/UX and asset pathing.
- Network & Data Labs: Configured VLSM/Security in Cisco Packet Tracer and performed data scrubbing using Python.

Skills

- | | |
|--|---|
| • Technical: PHP, MySQL, Python, JavaScript, HTML/CSS. | • Soft Skills: Time Management, High Discipline, Problem Solving, Teaching. |
| • AI & Productivity: Generative AI Tools, MS Word, MS Excel. | • Languages: Indonesian (Native), Arabic (Intermediate), English (Basic) |
| • Tools: Git/GitHub, Cisco Packet Tracer, VS Code. | |

Interest

- AI-Driven Productivity, Community Building, and Backend Development.
